

Secured by Design Doorsets

What is Secured by Design?

Secured by Design is the UK Police flagship initiative supporting the principles of designing out crime.

Secured by Design (SBD) is primarily an initiative to encourage the building industry to adopt crime prevention measures to assist in reducing the opportunity for crime and the fear of crime, creating a safer and more secure environment.

Secured by Design supports one of the Government's key planning objectives – the creation of secure, quality places where people wish to live and work.

Licensed Products

Secured by Design licensed company status is awarded to those companies producing security products, including doors and windows, which pass standards and tests nominated by the police service as "Police Preferred Specification".

Secured by Design – Fascinating Facts

Secured By Design fascinating fact No 1

"Secured by Design developments (those using products and materials approved by Secured by Design) are half as likely to be burgled and show a reduction of 25% in criminal damage".

Secured by Design fascinating fact No 2

"The Association of British Insurers has estimated that the introduction of Secured by Design standards across the UK would bring more than £3.2 billion worth of savings to the economy over 20 years".

Secured by Design fascinating fact No 3

"In one year alone, some 700,000 burglaries could be thwarted if appropriate security devices were installed, representing an annual saving of more than £1.97 billion".

Secured by Design Doorsets Include:

Door Leaf Type	Solid timber core
External Face	Choice of 11 colours
